

## **ABOUT THE SURI NETWORK**

- The North American Suri Alpaca Industry began over 30 years ago with the first importation of Suri alpacas from South America.
- The Suri Network and Suri breeders are committed to the advancement of Suri genetics and to the advancement of the economic value of Suris.
- The Suri alpaca is the only alpaca in North America to have an association-written and approved breed standard.
- Suri breeders understand the importance of continued education and research for the long-term growth of the Suri alpaca.
- The Suri Network's board is focused on the industry to benefit all breeders of Suri alpacas.
- North America has the opportunity and potential to be the global leader in Suri alpacas.
